Stephen Lu is responsible for general technical support functions and maintains the Task Force's presence online. Specializing in graphic design and media development, he assists in developing the public face of the Task Force.

Prior to joining the staff, he worked as an analyst at the Wagner Resources, Inc. Corporate Headquarters. During this time, he was actively involved in records management, human resources support, network management, event planning, and contract acquisition.

Mr. Lu also works as an event photographer, drawing much of his graphic design expertise from his work in this field. He is currently pursuing a double major in Political Science and Philosophy from the University of Maryland, Baltimore County.
